

Boat EPIRB

ACR Global Fix V4

EPIRB model: RLB-41

EPIRB ID UIN (15-digit hex) ID: [2DCC901B48FFBFF](#)

Serial Number: 3492

CHK: 66D27

EPIRB Registration Expiration: Aug 26, 2023

Date Registered: Oct 12, 2018

EPIRB battery replacement date: 3/28

ACR Ditch bag PLB

PLB Model: ACR PLB-425 aka [ResQLink™ View](#)

PLB: [2DCEA9A7E6FFBFF](#)

CHK: 0015A

Date Registered: Aug 26, 2021

Serial Number: 5107

PLB Registration Expiration: Aug 26, 2023

Home Port: Brisbane Harbor, California

Area: USCG Station Golden Gate

Lifejacket PLB

PLB Model: Ocean Safety RescueMe PLB1

Beacon Id: 2DCEAB6F74FFBFF

Checksum: bcf8d

Serial Number: 0141114266V

Mfr: rescueME

Model: PLB1

Battery Expiration: May 2029

Home Port: Brisbane Harbor, California

Area: USCG Station Golden Gate

Backup PLB: Waist ditch bag

PLB-375 ResQLink P/N 2881

Beacon ID: 2DCE7013C6FFBFF

Checksum: A77E5

S/N: 2531

Expires: May 10, 2024

Home Port: Brisbane Harbor, California

Area: USCG Station Golden Gate

Proof of Life Communications

Mike-

My email copied your hourly pings this afternoon, position reported as you slip in Brisbane

Tracking Communications

1. Iridium GO! Set before race to ping jibeset@comcast.net (as per instructions for Ray Irvine, note this is not the address set in the NOR/SI/Comms plan for LongPac)
2. Garmin GPSMAP 86sci

Note: I have two systems capable of tracking for SSS requirements: 1. Iridium GO! has been tested with Ray Irvine. 2, Garmin GPSMAP is not possible to test before race (as per Ray's email)

Other Communications

1. Fixed 25W B&G V20 VHF radio to masthead VHF antenna
2. Handheld Stand Horizon HX210 worn on lifejacket belt

3. Handheld Stand Horizon HX290 on boat intended to be transferable to ditch waist bag in emergency
4. Handheld Icom M94D AIS-capable handheld VHF intended to be transferable to ditch waist bag in emergency
5. Class A em-trak A100 AIS transponder coupled to pushpit AIS tuned antenna
6. B&G Halo radar
7. Class B B&G AIS coupled to antenna splitter and masthead VHF antenna
8. All antennas capable of being switched. Emergency VHF antennas.
9. Inmarsat satellite phone: Use 870776939278@message.inmarsat.com or use <https://connect.inmarsat.com/Services/Land/IsatPhone/SMS/sms.html> +870776939278
10. Garmin GPSMAP 86sci: Use <https://share.garmin.com/8X8BB> to send a text message
11. Iridium GO! Use <https://www.predictwind.com/iridium-free-sms/> to send a text message to 881652408353
